## Skills

---

**Languages:**Html,Css TypeScript/JavaScript

**Technologies/Frameworks:** Reactjs, Nextjs, Redux, Nodejs Bootstrap/Tailwind Css

**Developer Tools/Platforms:** Git, GitHub, Visual Studio Code,Sublime text

**Problem Solving:** DSA,

**Databases:** SQL(MySql)

## Education

---

**North East Frontier Technical University(NEFTU)**

**August 2018 - May 2021**

*Bachelor of Technology in Computer Science - Grade: 6.71Cgpa*

*Arunachalpradesh, India*

**R.P.B.M Jiaganj college of engineering and technology**

**july 2015 - May 2017**

*Diploma engineering - Grade: 67.9%*

*westbengal, India*

**Jiaganj Rajabijoy singh vidyamandir**

**April 2012 - May 2014**

*2nd puc - Grade: 72%*

*westbengal, India*

**Jiaganj Surendra Narayan girls high school**

**2010**

*matrix - Grade: 50%*

*westbengal, India*

## Project Work

---

**Birthday Reminder** | *Next.js, TypeScript, Tailwind css, React js , html and css*

- This is the Birthday reminder web app used react for overall development and material UI for UI building used to Redux for global state management user.

**E-commerce store cloths and jewellery** | *Next.js, TypeScript, Tailwind css, React js , html and css*

- E-commerce is electronic commerce and is the process of buying product and services over the internet Web application used to html, CSS, JavaScript, Reacts, redux Tailwind CSS only admin can perform create/ delete / cloths and jewellery orders. Normal user can only buy cloths jewellery and view order it has responsive& interactive UI

**FOOD DELIVERY APP — food-delivery-app-one-weld.vercel.app** | *Tech-Stack:HTML — JavaScript — Tailwind CSS — React*

- This is a well-designed food delivery application built with modern web technologies Which prioritizes performance, engagement, and user experience through techniques like optimized state management, UI/UX improvements, and responsive design. Designed a fully responsive interface, ensuring effortless compatibility across all devices. Deployment on Vercel ensures global accessibility and high uptime (99.9%), which is crucial for a reliable food delivery service
- Link:// **Food-Delivery**

**VIDEO STREAMING APP** | *Tech-Stack:HTML — JavaScript — Tailwind CSS — React*

- Implemented API integration strategies to streamline data handling, reduce response time, and improve overall system performance within the LangChain framework. Utilized JavaScript, Tailwind CSS, and React.js to develop a video streaming app through a modular component structure. Successfully integrated the YouTube API to fetch real-time video data, achieving 95% content accuracy and providing an authentic user experience. Ensured high availability and global accessibility by deploying the app on Vercel, resulting in 99.9% uptime.

## Internship and Certification:

---

- Besant technology — Frontend developer — Bootcamp Training. Worked on various mini-projects and assignments and participated in various coding contests. Tech UI designed learned: HTML, CSS, JavaScript, Bootstrap, GitHub, Reacts, Nodejs.

**language known:**

---

- English, Hindi, Bengali

**Hobby:**

---

- Cooking, Traveling, Music

**Achievements / Extracurricular**

---

- I got achievement in project fair of 2021 the title of the project is covid-19
